The announcement came just hours after Priscilla Presley had confirmed that her daughter had been rushed to hospital in Los Angeles, United States after suffering a cardiac arrest.

Priscilla Presley 
@Cilla_Presley

My beloved daughter Lisa Marie was rushed to the hospital. She is now receiving the best care. Please keep her and our family in your prayers. We feel the prayers from around the world, and ask for privacy during this time.

The [Mail Online](#) reports: Lisa Marie's death comes just two days after she was pictured with her mother at the Golden Globe Awards at the Beverly Hills Hilton where [Austin Butler won a Best Actor award for his portrayal of her father](#) in Baz Luhrmann's *Elvis*.

Lisa Marie's life was tumultuous, with

[five stints in rehab for cocaine and opioid abuse](#), [four failed marriages](#) – including one to [Michael Jackson](#) – as well as losing her son to suicide and a fierce custody battle over her twin girls with an ex-husband she falsely [accused of having child pornography](#).

Sources yesterday told TMZ that Lisa Marie was found unresponsive in her bedroom by her housekeeper and that her ex-husband, Danny Keough, who she has been living with, performed CPR until paramedics arrived.

The source added that ‘someone administered epinephrine’ – more commonly known as adrenaline – at

the scene at least once in order to help Lisa Marie regain a pulse.

Less than a year ago Lisa Marie was actively promoting Covid ‘vaccines’ and said that she had no regrets about getting hers.

March 12, 2022 at 4:14 PM · 🌐

The last two years have been years of significant change in our lives. The COVID-19 didn't only take our jobs and security, it took our lives.

The idea of having a regular life like we used to, going out with family and friends and having quality time with them, motivated me to get vaccinated because I'm not only protecting myself, I'm also protecting others.

I can't lie, I was nervous initially, but I made my decision and I have no regrets!

To be informed about how best to protect ourselves and our loved ones is the smartest thing we can do. I chose the vaccine. Why did you decide to get vaccinated?

The vaccines prevent serious illness, hospitalization, and death from COVID-19. The COVID-19 vaccines are free, even if you don't have health insurance or aren't a U.S. citizen.

Please visit <https://bit.ly/elbeacon> to join the El Beacon initiative to promote the COVID-19 vaccines and

boosters.
