# Digital Currency Will Make The Tyrants Of The Past Look Like Amateurs Compared To What's Dead Ahead

[By D Parker](#) for All News Pipeline

Bill Mahr, recently intimated in a monologue entitled [New Rule: No National Divorce!](#), that “*each side prays the other side doesn't destroy the nation*” referring to the two sides of the political divide.

The stark reality is that it's the far-left democrats that are out to [betray and destroy](#) the country.

You only have to start looking around to see this taking place in real-time, and only our comrades of the far left could deliberately miss seeing the evidence.

One could argue where he is on the logically linear political spectrum and part of the problem. He's spewing the same old BS from the sinister set that *'both sides do it.'* It's the same game they always play, trying to deflect blame from themselves.

In looking at these examples, take note of a favorite deflection tactic leftists

love to use. A technique of emphasizing a minor instance of the right doing something to the exclusion of their side doing far worse. For example, they have been censoring the press and free speech for years across all forms of media, blatantly violating the spirit if not the first amendment outright. While [showing themselves to be anything but liberal](#).

However, they have also been trying to [force pornographic materials on young children](#) to the horror of parents who want the practice stopped. Thus, the [far-left keeps on hammering](#) on age-appropriate guidelines such as '[book bans](#)', etc. to the exclusion of what they

are doing. Yes, they are hypocrites of the highest order, but they likely take that as a badge of honor.

*(ANP EMERGENCY FUNDRAISER: Due to a heavy, new censorship campaign by 'big tech' upon ANP articles, we're being forced to [run an emergency fundraising drive](#). We also want to thank everybody who has [donated to ANP](#) over the years. With donations and ad revenue **all that keep ANP online**, if you're able, please consider [donating to ANP to help keep us in this fight for America's future at this absolutely critical time in US history](#). During a time of systematic, 'big tech' censorship and widespread*

*institutional corruption, truth-seeking media and alternative views are crucial, and EVERY little bit helps more than you could know!)*

This is how they've blotted out the memory of the billions in damage to burned-out urban areas across the country. As well as the looting and murder of police officers during the [Burning, Looting, and Murder \(BLM\) riots](#) of the summer of 2020 by still complaining about one 3-hour event in

Washington. In addition to constantly persecuting President Trump to obscure the Biden scandals showing he's beholden to the Chinese Communist Party. The Democrats and national socialist media don't always have a deflection excuse for each one of their destructive policies, but when they do, they play it to the hilt.

***Destroying our sovereignty by  
obliterating our border security.***

This one [destructive policy](#) on the part of the Biden administration has so many subcategories of severely dangerous consequences, it should be enough to convict the regime. But sadly, they have been busy in many

other areas as well.

However, this policy and the lies surrounding it, ought to convince most reasonable people that it's the far left and the far left alone that is out to destroy the country.

### ***Illegal invasion.***

This started before Biden was selected for the presidency when he said to ['surge to the border'](#). Amazingly enough, the far-left still insults our intelligence by claiming the border is '*secure*'. But even if it isn't their '*solution*' to grant amnesty so the invaders can vote to take more of your money and encourage more invaders, we're still not clear on how this is

supposed to be a '*solution*'.

### ***Fentanyl War.***

Like the Opium wars, Communist Red China has taken a page from history and is exploiting our open border to [send in tons of poison](#) to [kill a generation](#). No doubt to make it easier for them to [dominate the world](#).

### ***Criminal organizations in control of the border.***

There is rampant criminality across the border - even excluding the illegal invasion. Wouldn't it make sense to stop this from spilling over into the states? And yet the Biden regime does nothing to control the situation, why?

### ***Terrorists and criminals crossing***

## ***the border.***

There have been [multiple reports](#) of terrorists (real terrorists, not [parents at school board meetings](#)) being apprehended at the border. How many have crossed over our non-existent border while the Border Patrol was busy babysitting? Reports have also surfaced that [South American regimes](#) are emptying their prisons to send them to the states.

All these terrorists and criminals are ticking time bombs that will cause death and destruction. We don't know how many people are going to die just because of the far left's malfeasance in this matter.

***Men of military age are crossing while Biden bumbles and stumbles towards starting WWII.***

Does it occur to everyone that having an [open border](#) would be the last thing you would want to do if you were stumbling toward war? [Millions](#) of men of military age have crossed over the border while the far-left ruling class seems *hades bent* on provoking a war.

This makes no sense at all while the same people deign to tell us how to live, the kind of [cooking appliances](#) we can have, and how we can [air condition](#) our homes.

***Foreign policy weakness.***

This started with the Afghanistan

withdrawal and their ineptitude continues with tiresome repetition that can't possibly be attributed to random chance.

***Decimating the small arms industries.***

Speaking of Brandon beating the drums for war, does it make any sense to destroy a [key component of our defense industry](#) while we're doing so?

Back during the opening days of WWII, we sent thousands of small arms overseas to the UK to defend against the [National Socialist German Workers' Party](#) (Nazi) threat.

These days the far left is doing everything in its power to destroy those

vital industries, does that make any sense for those who value individual liberty?

***Indoctrinating children into insanity-destroying our future.***

Then we have the fact that the tyrannical ten percent has decided to permanently destroy childhood innocence, indoctrinate children into Collectivist Racism Training, and [mutilate children](#) whenever they can. They've already pushed the aforementioned hard porn onto young children and as a side benefit, can exploit this as a distraction from their industrial censorship complex.

And do we have to ask why in the last

few decades, these same children are becoming suicidal and mass murderers when repeating and semiautomatic firearms have been around for more than [180](#) and [130](#) years respectively?

### ***Destroying civil rights.***

We mention the far-left's deflection scam because that is their main camouflage for what they are doing to [freedom of speech](#), freedom of the press, the common sense civil right of self-defense, and the rest of the Bill of Rights.

They can't exactly defend their tyrannical actions against these basic civil rights. So, they just keep screaming about age-appropriate restrictions as non-existent '*book bans*' or equate them to book burning. You'll note that they keep on repeating their lies over and over for two very good reasons.

One is so they maintain the lie and two so that they keep the focus away from their censorious actions.

Thus, they keep on talking about '*book bans*' over and over and over, while ignoring their book bans and outright censorship. Not to mention every day coming up with new ways of attacking

your common-sense civil right of self-defense.

One particularly egregious example should scare the Biden out of you.

According to a report in the Federalist, The U.S. Government Is Building A Vast [Surveillance And Speech Suppression](#) Web Around Every American.

*Our government is preparing to monitor every word Americans say on the internet—the speech of journalists, politicians, religious organizations, advocacy groups, and even private citizens. Should those conversations conflict with the government’s viewpoint about what is in the best*

*interests of our country and her citizens, that speech will be silenced.*

### ***Destroying the dollar.***

Wouldn't you know they've [come up with](#) a particularly insidious way of [eviscerating our individual liberties and destroying the economy](#) at the same time? The threat of a Central Bank Digital Currency has been brought up before, but now with a [disastrous economic crisis](#) looming on the horizon, a [programable Central Bank Digital Currency](#) will make the collectivist tyrants of the USSR and (Nazi) National Socialist Workers' Party Germany look like amateurs by comparison.

## ***Destroying the justice system and the rule of law.***

This also refers back to our admonition on the far left's deflection scam, because while the national socialist media has spent days hyperventilating over the misdemeanor [legal issues](#) of President Trump, they've [ignored the enormous issues of Biden](#) and his ties to the Chinese Communist Party.

Destroying the rule of law in the process. But again, the media keeps on peddling the same stories over and over and ignores what their side is doing.

We're [going bananas and losing the Republic](#). Layer on top of this all the

unconstitutional laws and rules put in place by the Biden regime. Just another form of destruction.

***Destroying the country by ripping it apart with reparations and equity demands.***

The [latest craze](#) from the collectivists has [been to demand](#) insane [Billions for reparations](#) along with equity demands. The country is trillions in debt, so this is never going to happen, but that's not the point. The true purpose is to sow division and set people against each other.

***Destroying the electric grid while mandating electric vehicles - brilliant!***

This is another bit of far-left insanity that not many know about but makes the treason case along with everything else. A veritable one-two punch of crazy that you can't understand if you possess a rational mind.

The story is that people who thus far have failed to comprehend basic physics think that they know better and that everything can run on electrical energy, as evidenced by all the electric-powered passenger jets flying around or electric-powered tractors tilling our fields. That won't matter that much if you don't have to fly that far (or go to a climate conference) or eat.

But, it's even worse than that, our

bettors are mandating electric-powered replacements of existing vehicles that don't exist - while they are mandating the [dismantling of the fossil fuel](#) generating capacity at the same time. How is that for intelligence? The checkmate in all of this is that this will eventually empower the Chinese Communist Party - imagine that?

***Draining the SPR while keeping our fossil fuels in the ground.***

Why are Brandon's Bolsheviks selling off the [Strategic Petroleum Reserve](#) that is meant to fuel our military in the event of a global emergency - such as a war- along with canceling pipelines and drilling leases keeping it in the

ground so that we have import it from our enemies?

### ***Destroying the language.***

While not as physically destructive as the other elements of this listing, the fascist far-left's insidious work in destroying the language is far more damaging to our nation's psyche than anything else. George Orwell was quite prescient on this score in his most prominent work [1984](#) with a section on '[Newspeak](#)' and how that collectivist, totalitarian regime worked tirelessly to change the way people think. Just as the far-left is doing now, redefining words on the fly, making up new terms, and trying to cancel others.

Bill Mahr's facile contention was that since supposedly both sides are at fault, there should be '*No National Divorce!*' But all you need to do is look at the overwhelming evidence to see that isn't the case. In reality, it's only a [small minority on the anti-liberty left](#) that are out to destroy the country, and they are doing it by every possible means they can muster.
