An Unbridled Leftist Government Is Now Out of Control - America Out Loud

America's

Now is the time for constitution-loving Americans to fish or cut bait. We are at the very cusp politically, where honest Americans should no longer simply tolerate or acquiesce to the mismanagement of our government by

grifters, incompetents, thieves, and Chinese agents of influence like Joe Biden. Conservatives everywhere must seek, indeed, demand the immediate end of Biden's government because they are so dangerously wrong to the point that even the remaining twenty months of Biden's corrupt presidency stands as a clear and present danger to our Great Republic. As Lincoln predicted, America is being destroyed from within, and it must be stopped. The tools are in the Constitution. GOP, use them!

The DoD is in the hands of a feckless retired affirmative-action Army general who waited several hours before

informing the Congress of the Iranian rocket attack in Syria that killed and injured several Americans. Does he have no clue, perhaps he does, of the external dangers facing America from an increasingly emboldened and hostile Iran?

Biden's DoD has shamelessly moved Left in full support of the Left's demands for diversity, equity, and inclusion to implant the Progressive's agenda of codifying sexual perversion into the ranks as official US Government policy under the perverted guise as necessary for fair social empowerment of perverts. The fate that befell Sodom and Gomorrah

awaits us just around the corner. The Left doesn't want to hear that. After all, they are trying to be our new god, and we should understand and accept that.

Christians, therefore, representing a serious threat of domestic terrorism, necessarily become "Enemies of the State." That trend will probably trickle down if not forcibly imposed onto our state and local police departments so long as Democrats maintain the reins of federal power. They'll certainly try.

Imagine a transgender police commander sending officers into the Nashville school shooting scene if he/she even thought the shooter was transgender. Already, PBS radio has

encouraged transgenders to arm up, get firearms training and prepare themselves to fend off a violent Christian-led response. Wow, do the attacks on Christianity never stop! PBS is a government-supported propaganda machine. The very idea of a local or state transgender-oriented thought police having any authority to search us or our residences on account of what we read, write, or say should be abhorrent to all Americans. It is a violation of the first amendment, which they want to ignore anyway. We must still beware of the weaponized FBI as well.

Where's the GOP when we need

them? They're worried about Trump. After the Nashville Church school shooting, Joe Biden, as any responsible president should, addressed the nation, not to bring us together but, to tell us about his love for Chocolate Chip ice cream before blaming Republicans for the Nashville shooting because Republicans refuse to vote for the abolition of semi-automatic rifles or kill off the Second amendment. Without a second amendment, we will have no first amendment.

The focus of our country's malaise is Joe Biden and the Marxist crew who actually prop him up and run his shop.

Joe is nothing but an ice cream-besotted figurehead, a silly doddering old man who should be in hospice care. But, a reckoning is coming as Chinese Bank records, now in the hands of House Republicans, irrefutably confirm the allegation of Biden's family criminality.

The fact that the CPP paid Joe millions as an agent of influence as well as bribing millions of dollars from the Burisma Oil Company of Ukraine, confirms the case against him. Why should we allow this to continue? Is it because the equally feckless Kamala Harris lurks just behind the curtains? While we are being flooded by all this

nonsense about Trump being indicted or not, it takes our eyes off the bigger problems we face at the southern border, a financial and economic tsunami of illegal invaders, and a flood of Chinese drugs that threatens our local as well as national economies.

“The weed of crime bears bitter fruit.”

Do ya think we need to hoe the garden?

Remember, freedom is the goal; the Constitution is the way. Now, go get ‘em!
