## The Rise Of Transgender Mass

# **Shooters Has Just Begun - As The Media, Liberals Push Gender Confusion And Grooming Children, The More Violent They Will Become**

*The rise of violent  
transgender aka gender  
confused people*

**By Susan Duclos - All News  
PipeLine**

Before moving into the meat  
and potatoes of this article, I  
would like to point out that days  
ago it was reported by multiple

news outlets that the Manhattan Grand Jury was taking a month off from hearing new testimony in the Trump "hush money" case.

Then a 28 year old female that claimed to be a transgender man walked into a Christian elementary school and killed six people, three adults and three children.

As that news dominated the MSM, suddenly, out of nowhere, it is reported that the

Manhattan grand jury indicted  
President Trump in the Stormy  
Daniels hush money case.

Lo and behold, suddenly we  
aren't seeing so many  
headlines on the latest  
transgender shoot and it is all  
about Trump.

I'll leave the "coincidence" of  
the timing for our "conspiracy  
theorists" to discuss, because  
the mental disorders that seem  
to come with being gender  
confused, now seems to

include mass shootings.

# **GENDER CONFUSION CAUSES MENTAL INSTABILITY**

The statistics show that on average transgenders commit suicide more than normal teens

that are not confused about their "gender identity."

[From a 2020 study](#) we see

"Data indicate that 82% of transgender individuals have considered killing themselves and 40% have attempted suicide, with suicidality highest among transgender youth."

That is far above the national average.

We have discussed this before at ANP, wondering why schools and the media encourage the

"grooming" of children into the LGBT community, when it is pushing those same children into suicide or suicidal thoughts.

The image above was shared on social media, and after doing some checking, it is true.

One in 2018, we'll call the canary in the coal mine, and three others since.

[In 2018, Aberdeen,](#)

[Maryland](#): Four people were shot and killed outside a Rite

# Aid distribution center

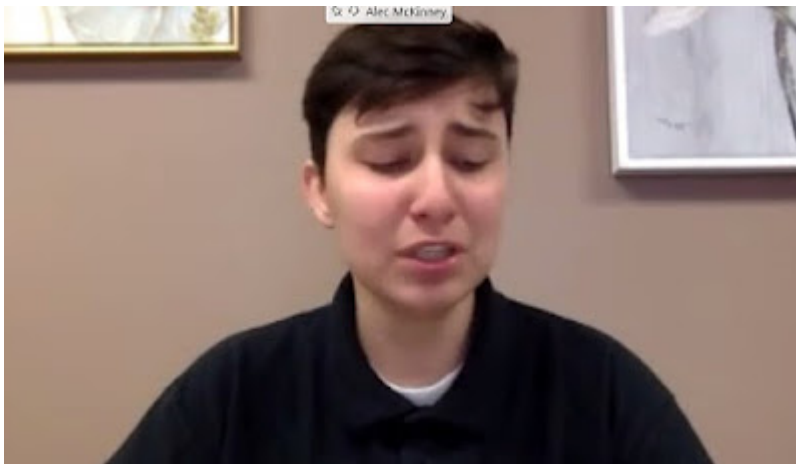

by Snochia Moseley, 26, an African American female who identified as a transgender man. (Picture is third down in the image above)

In 2019, Colorado: Devon Michael Erickson, along Alec McKinney, murdered one student and injured 8 others on May 7, 2019, at STEM School Highlands Ranch in Douglas County, Colorado.

In the image above, second

down, we see Devon Erickson,  
but it was his partner in the  
shootings, [Alec McKinney, that  
was born a female and  
identified as a male, aka,  
transgender man.](#)

The image below is Alec  
McKinney:

[In 2022, Anderson Lee Aldrich,](#)  
(first picture in the image

above) opened fire at a Colorado Springs gay nightclub, Club Q, fatally shooting five people, identified as "non-binary."

*In several standard motions filed on behalf of Anderson Lee Aldrich on Tuesday, public defenders refer to the suspect as "Mx. Aldrich," noting in footnotes that Aldrich, 22, is nonbinary and uses they/them pronouns. The motions deal with issues like unsealing*

*documents and evidence  
gathering, not Aldrich's identity  
and there was no elaboration  
about it.*

2023: Last but not least, the most recent, [Audrey Hale, 28, transgender](#), born a female, identified as a male, opened fire at a Christian school, killing six, three adults and three children.

It is noteworthy that other than the man claiming to be non-binary, the other three were ***all***

***born women but wanting to be men.***

Since this meme went viral, the MSM has been working double time to convince Americans that the transgender shooters are not on the rise in comparison to other shooters.

Nothing to see here, move along they say.

## BY THE NUMBERS...

[ABC News](#), in attempting to debunk this viral meme, makes the following claim:

*THE FACTS: While specific data on transgender and nonbinary mass shooters can be hard to isolate, available information shows that the overwhelming majority of assailants in mass shootings*

*are cisgender males.*

Cisgender, for those like me that do not pay much attention to all the "gender" nonsense, are those that are born men or women and actually understand they are the gender they were born with.

What ABC News didn't do, is show how many "cisgender" aka normal men there are in the U.S. compared to how many so-called transgender people there are in the U.S.

[According to Statista](#), there were approximately 165 million men in America in 2022.

In a report from September 2022, by a [website on lesbian, gay, bisexual and transgender news](#), it says a study finds there are only 1.4 million adults that identify as transgender.

According to that study, 1.2 million are transgender women and 200,000 are transgender men.

Transgender men are the ones

born a woman and want to be a man, and are the ones listed above as the mass shooters in three of the four shootings by "gender confused" people.

There is roughly 825 times more straight men than there are women pretending to be men.

ABC News is trying to compare apples and oranges here.

Saying the majority of mass shootings are from straight men, which there are roughly

165 million of, to those committed by transgender men, to which there are only 200,000 of, ignores the fact that by percentage, yes, transgender shooters are on the rise.

## **BOTTOM LINE**

As the image above makes clear, this isn't just about mass shootings, but about the mental instability and anti-Christian hatred for anyone that doesn't accept the LGBT agenda.

The more the MSM, democrats and the Biden regime encourages and pushes the LGBT agenda on people, the more mass shootings and violence from the transgender community will rise.

This is what happens when gender "confusion" and grooming is forced upon our nation's children.

The video news clip shown below, shows Tucker Carlson and independent journalist Andy Ngo discussing the violence associated with the transgender movement.
