How Bank Runs Lead To The New World Order And The Great Financial Reset

11-14 minutes

March 13, 2023

This Is How Bank Runs Lead To The 'New World Order' And The 'Great Financial Reset' And How This Latest Banking Fiasco Is Tied To The Ongoing COVID/Vax Genocide And 'Depopulation'

[By Stefan Stanford - All News Pipeline - Live Free Or Die](#)

While [Susan Duclos had warned](#) on Sunday that '*Black Monday*' could be a wipeout for countless people across the planet as the Silicon Valley Bank collapse worked its way into being [the 2nd](#)

[biggest banking collapse in US history](#), we've got to take another look at that still breaking story from different angles, with both that [story over at Coin Telegraph which reporting](#) on how the Silicon Valley Bank failure is urging regulators to step in due to claims that *nearly 40,000 of all depositors at Silicon Valley Bank are small businesses* and how [these bank runs are being used to lead to the 'new world order' and 'great reset.'](#)

With that Coin Telegraph story warning that *Federal Reserve and Federal Deposit Insurance Corporation (FDIC) decisions concerning the future of Silicon Valley Bank (SVB) **may affect regional banks across the United States, putting trillions of dollars at risk of a bank run***, keep in mind that YOUR MONEY and the 'American taxpayer dollar' will be used by the govt when they ['move' to 'stop' this financial crisis](#), proving the overall point of [Susan's March 12th story](#), once you deposit that money in the bank, it's no longer yours.

As the former Bridgewater executive and the CEO of investment firm Unlimited Bob Elliot expressed in a twitter thread on March 11th as [was reported in this Coin Unlimited story](#), *nearly a third of deposits in the United States are held in small banks, and a whopping 50% are uninsured.*

"The FDIC insures small deposits in all the banks in the US, but that only covers about 9tln of the nearly 17tln of outstanding deposit base. [...] Under the hood the coverage rate is roughly 50% across most institutions while credit unions are higher (not above)."

Though as [Wolf Street had reported in this new story](#) on their website, it looks like ALL of Silicon Valley Bank's uninsured depositors will be bailed out, along with those from Crypto Signature Bank, as well as shut down, with senior executives being fired and all shareholders and some bondholders bailed in. [From](#)

[that Wolf Street story.](#):

Treasury/Fed/FDIC issue joint statement with Tough Love for investors in failed banks.

We started hearing this yesterday from “sources” cited by Bloomberg. And this morning, Secretary of the Treasury Janet Yellen got on TV and repeated the general principle, without details. Now we got it officially, in a joint announcement by Yellen, Fed Chair Jerome Powell, and FDIC Chairman Martin Gruenberg. The bailout of uninsured depositors has arrived, so now all depositors of Silicon Valley Bank and Signature Bank, which was shut down today, will be made whole, not just insured depositors. The banks that are still standing can borrow from the Fed under a new facility. But investors in failed banks are on their own.

*“After receiving a recommendation from the boards of the FDIC and the Federal Reserve, and consulting with the President, Secretary Yellen approved actions enabling the FDIC to complete its resolution of Silicon Valley Bank, Santa Clara, California, in a manner that **fully protects all depositors. Depositors will have access to all of their money starting Monday, March 13,**” the [statement said](#).*

The Fed will pay for it at first. *The Fed will print the needed funds to cover the deposits and give it to the FDIC (and the proceeds from asset sales will chip in to cover the losses). “No losses associated with the resolution of Silicon Valley Bank will be borne by the taxpayer.”*

Later, the FDIC will charge other banks for those losses it incurred from bailing out uninsured depositors. And maybe the Fed will eventually get is money back from the FDIC? The statement said: “Any losses to the Deposit Insurance Fund to support uninsured depositors will be recovered by a special assessment on

banks, as required by law.”

The way it seems to work, with lots of tough love in the statement:

- 1. The Fed gives the money to the FDIC as needed.*
- 2. The FDIC makes all deposits available on Monday.*
- 3. The FDIC then sells the assets of the banks, which takes some time.*
- 4. The difference between the cost of bailouts of the depositors and the proceeds from the asset sales is the actual amount the FDIC lost.*
- 5. The FDIC charges other banks a “special assessment” to cover those losses, “as required by law.”*
- 6. And it may then pay the Fed back with those funds it collected from other banks?*

(PLEASE HELP ANP STAY ONLINE: With non-stop censorship, 'big tech' attacks upon independent media, and outside groups spending millions to blacklist conservative news, donations from readers are absolutely critical in keeping All News Pipeline online. So if you like articles like this, [please consider donating to ANP.](#))

So while 10's of millions of Americans may not think that the

collapse of SVB will have any effect upon them at all, as [this story over at Coin Telegraph](#) also reports, *according to Fed data, small banks in the United States had \$6.8 trillion in assets and \$680 billion in equity as of February 2023. Considering this scenario, a failure on the tech bank would put in "risk of a run on thousands of small banks," further making the SBV situation a "main street problem," said Bob Elliot.*

And while [The Dispatch reports](#) the Federal government is trying to contain the fallout from this latest bank failure, how long before they can no longer 'kick that can down the road' and things will implode disastrously? It's not just a coincidence that [#TheGreatDepression](#) is trending this very moment on twitter.

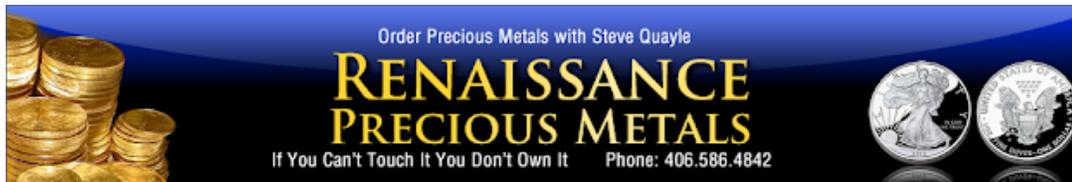

Trending along with [#StockMarketCrash](#), it's also not just a coincidence that in [this brand new Yahoo story](#) with the beginning title of "I'm A Self-Made Millionaire" it advises its readers to invest in precious metals such as gold and silver during an economic downturn due partially to the fact that we've witnessed decades worth of data available showing they *tend to hold or increase the value, even in times of economic uncertainty.*

As numerous ANP readers have pointed out in comment sections of other ANP stories, including [Betty who had pointed out](#) *Gold had currently been at \$1901 while [Terry Jones pointed out](#) "I think people are waiting for them to lose control. I think it is all tied to the dollar, once that crashes I think it will be a lot different. People trust silver and gold because it has been REAL money since the dawn of time," 'Master of Reality' had a much different viewpoint* as seen in his comment highlighted below.

"Politicians secretly discuss confiscation of American citizens gold and silver at gun point in news of the complete bank collapse. We must steal the punk citizens gold, silver, land, and

assets so we can live good."

So while Susan and I would NEVER suggest '*stealing the punk citizens gold, silver, land and assets so we can live good,*' those living in Washington DC and now carrying out '*depopulation*' upon the American people through their [manufactured COVID virus and the shot that they created well before the virus was even out](#) ABSOLUTELY MUST be held accountable for their genocidal crimes upon humanity somehow. And the '*great reset*' and '*new world order*' are definitely heavily tied to BOTH the ongoing COVID/vax genocide for '*population reduction*' as well as to the SVB banking collapse in the long run as the globalists fully believe they need to '*take down*' and '*demolish*' the old before they can usher in the new.

So while Monday is by no means yet '*over,*' and as [this new story over at the Daily Mail reports](#), trading has at least been temporarily HALTED in dozens of banks after shares fell by up to 75% when the market opened at 9.30 am, that coming only moments after '*traitor to America*' Joe Biden said that '*US banking is safe,*' [Daily Mail reports the contagion has spread](#) to '*heavyweights*' in the banking industry, Wells Fargo, Bank of America and JP Morgan.

Hopefully [giving the American people even MORE PROOF](#) that "***the US banking system has become a tool for the US Govt to create the illusion of a strong economy by pumping the markets with Govt printed money and using banks to raise more debt,***" and that only works for a limited time, what happens to our own children and grandchildren when all the bills come due someday on down the line?

As [Steve Quayle had mentioned in an SQnote](#) while linking to [this Turner broadcasting story](#) about this still rapidly unfolding mess, *"NOT ONE OF MY [PRIVATE BRIEFINGS SUBSCRIBERS](#) SHOULD BE WORRIED. AS YOU KNEW THIS WAS COMING."*

As [Steve points out very clearly on his Renaissance Precious Metals website](#) banner seen above, *"If you can't touch it you don't own it!"* And with this fiasco potentially showing us all in the long run just how dangerous investing in the banking system is, especially when it comes crashing down because of some people's absolutely horrid decisions means that YOU can't get your money back out, what happens in the future, whether very near or further away, when 10's of millions of Americans are *'stiffed?'*

So while March of 2023 might not be that day, and somehow the globalists will manage to kick the can down the road even one more time, knowing that the *'great reset'* and *'new world order'* are their *'end games'* for this mess they've created really tells us it's just a matter of time.

As [the Gateway Pundit reported](#) this morning soon after the stock markets opened, the NY Stock Exchange halted trading on 30 different banks as the stock market opened this morning, with [Jan Miles Chong asking in this tweet](#) if the banking collapse is happening in real time as we speak.

So while we don't have all the answers to those pertinent questions, each of the videos below take a look at this still unfolding mess from different angles as we go forward into what should be a very interesting year with both [the Epoch Times](#) in the 1st video and [Mike Adams of Natural News](#) in the 2nd video warning us that despite moves made by Joe Biden and the US govt, the domino effect is ready to roll through the economy.

Because with the globalists NEEDING this OLD system to be *'torn*

down' in order to fully usher in their new global tyranny, it's NOT just a '*coincidence*' that this mess is happening at the very same time as the globalists mad rush to another world war as General Michael Flynn bluntly warns us in the 3rd video below. And the final video below is currently a live stream from Fox News on this unfolding mess.

And with this [absolutely alarming story over at Sons of Liberty Media](#) written by Tim Brown that [ANP reader Leethal had pointed out in a comment](#) reporting 5 crypto billionaires had died within weeks of each other, with one of the dead pointing out in his final tweet that the CIA had allegedly been running sex trafficking rings, who'd really put it past those carrying out genocide and such horrendous crimes from '*killing off*' some of the people who might know a little bit too much about them? Certainly not us.

EMERGENCY ANP FUNDRAISER: With non-stop censorship and 'big tech' attacks upon independent media, donations from readers are absolutely critical in keeping All News Pipeline online. So if you like stories like this, please consider donating to ANP.
