**2024 Will Be The Year Blood Will Flow In The Streets As America Is A Powder Keg Ready To Blow - Biden Regime Using Lawfare And Federal Agencies To Thwart The Will Of The People**

[By Susan Duclos - All News Pipeline](#)

Presidential election years are always fraught with tension as the platforms of Democrats and Republicans are on opposite ends of

the spectrum, but in 2024, that tension threatens to explode into mass violence.

Before detailing what makes this presidential election far different than any other in the history of the nation, let's first deal with the claim that both parties are the "same."

Yes we have RINOs (Republican In Name Only) that will sell out the best interest of America because they are members of the "uniparty," but when it comes to major issues, Democrats and Republicans are like night and day.

Abortion, the killing of the unborn, is one such issue, where Republicans are opposed, while Democrats are pushing, in some cases, for [unlimited abortion right up until the moment of birth](#).

Regulations, big government, tariffs, welfare, are just the tip of the iceberg as to topics that the right and left are on completely opposite sides.

So no, the two parties are not different sides to the same coin.

**Back to the topic of this piece**, we have a number of issues that have not been faced in prior presidential election years.

Such as the fact that [69% of Republicans and Independents that lean right](#) believe the 2020 election was rigged and Joe Biden is an illegitimate president.

Add to that the use of lawfare against President Trump, who is the leading candidate of the opposing party to Biden, to which [62% of Americans believe the cases against Trump are politically motivated](#).

## LAWFARE.....

Lawfare is defined as: The strategic use of legal proceedings to intimidate or hinder an opponent.

That is not just a "conspiracy theory," as we have seen reports that the special prosecutor, Nathan Wade, in the GA case, charging Trump with racketeering, conspiracy and other charges, [met with Biden administration officials twice](#) before filing charges against former President Donald Trump in Georgia.

*Fulton County Special Prosecutor Nathan Wade met with Biden administration officials twice before filing charges against former President Donald Trump in Georgia.*

*Wade billed the county for 16 hours of meetings with the White House or the White House Counsel, amounting to \$2,000 each time.*

We also know that aides to Special Counsel, Jack Smith, [also met with Biden staffers before indicting](#) President Trump.

*The White House counsel's office met with a top aide to Special Counsel Jack Smith just weeks before he brought charges against former President Trump for allegedly mishandling classified documents — raising serious concerns about coordinated legal efforts aimed at President Biden's likely opponent in 2024.*

*Jay Bratt, who joined the special counsel team in November 2022, shortly after it was formed, took a meeting in the White House on March 31, 2023, with Caroline Saba, deputy chief of staff for the*

*White House counsel's office, White House visitor logs show.*

*They were joined in the 10 a.m. meeting by Danielle Ray, an FBI agent in the Washington field office.*

Now we find out that Alvin Bragg, NY County District Attorney covering Manhattan, [met with federal law enforcement before indicting Trump](#).

*On March 17, 2023, Bragg asked for a meeting with federal law enforcement ahead of the Trump indictment Trump, a court source told Fox News. A year earlier, Bragg's office hired a former senior Department of Justice (DOJ) official Matthew Colangelo, who spent years targeting Trump at the Justice Department. He also attacked Trump in his role in the New York Attorney General's office.*

Special Counsel Jack Smith is also attempting to rush the Supreme Court into a decision not to delay his trial against Trump while they take up the issue of whether Trump enjoys immunity, claiming the American public deserves the right to a "speedy trial," yet the speedy trial aspect of the law, applies to the defendant, not the prosecution.

The unarguable goal here with the use of lawfare on the part of the Biden administration with the use of liberal prosecutors, is to interfere in the 2024 election, which Donald Trump leads in polling against Joe Biden.

## BIDEN ADMIN'S ELECTION INTERFERENCE.....

A January report states the CIA will work 'actively against Trump and the Republicans' in 2024 ahead of elections according to a Georgetown University professor, Dr John Gentry, who just happens to be an ex-CIA analyst.

[Dr Gentry told Fox News Digital](#): "My guess is that the the proverbial deep state within the intelligence community will reemerge because presumably a Republican candidate will again be seen as a threat to the internal policies that many intelligence people like."

Normally we would advise the claim by Dr. Gentry should be taken with a grain of salt, but we now know that the CIA under Obama, along with foreign intelligence agencies with permission from Obama, [illegally targeted 26 different Trump associates before the 2016 Russian collusion claims](#), which turned out to be false.

*Former CIA Director John Brennan identified and presented the targets to the US's intelligence-sharing partners in the so-called "Five Eyes" agencies – the intelligence-gathering organizations in the US, United Kingdom, Canada, Australia and New Zealand – according to a report published Monday on Michael Shellenberger's Public Substack.*

Then we have the anger of the J6 political prisoners, arrested after a protest became a riot, to which federal agents, namely the FBI,

were present as protest infiltrators, and were held without bail, with some [in jail with no trail for more than two years in some cases](#).

## **VIOLENCE AGAINST TRUMP SUPPORTERS DURING HIS PRESIDENCY..**

On the flip side, we already know what will happen should the Biden regime's lawfare doesn't work and Donald Trump is elected President again in November, because it already happened after the 2016 election.

Breitbart, at the time, [published a "rap-sheet"](#) which listed 388 attacks against Republicans between January 2016 through February 9, 2020, when they stopped tracking violence against Trump supporters.

From GOP headquarters in multiple states being vandalized, to leftists attacks against Republican supporters at Trump rallies, to doxing, to people being physically attacked for wearing MAGA hats, to a liberal woman harassing a 74-year-old man in MAGA hat, to an 81-year-old man wearing 'MAGA' hat being assaulted in New Jersey, to death threats, to a 14-year-old boy wearing Trump hat assaulted, and much, much more.

## **BOTTOM LINE.....**

People are angry, and as the Biden regime continues to use lawfare against Trump in an attempt to take him out of the 2024

election, that anger increases daily because conservatives have had just about enough already, and the never-ending anger on the left continues to add fuel to the fire.

Either way, 2024 is likely to be the year that blood flows in the streets.
