New 'Snapping of the American Mind' illuminates Orwellian takeover of U.S.

It may be hard to believe today, but 40 years ago when I started out in journalism and Reagan was president, it really was “Morning in America” – our nation was prosperous, largely unified, respected by its allies and feared by its enemies. Almost miraculously, the Berlin Wall was torn down and the fearsome nuclear-armed Soviet Union peacefully dissolved ... without a shot being fired! That’s what good American leadership can do.

Today, just a few decades later, America’s ruling elites drool over Marxist ideologies, our border is

purposely left wide open so millions of illegals can invade our country, our elections are rigged, and our government promotes maniacally deranged policies on every front while busily turning citizens against each other. They prosecute conservative Christians as criminals and terrorists, while excusing and encouraging *actual* crime and terrorism. They sexualize, corrupt and brainwash our precious children with toxic ideologies and groom them into undergoing double mastectomies and castration in a desperate and impossible effort to “change genders.” Oh yes, and we’re on the verge of World War III with Russia!

As a direct result of all this, suicide and depression have skyrocketed in the U.S.A. and – believe it or not – a staggering 130 million Americans have come to depend on mind-altering substances just to get through life.

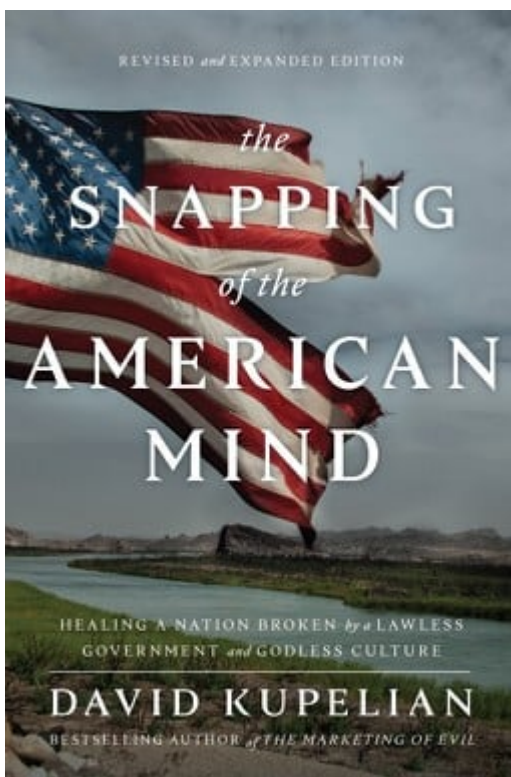

What happened?

Turbocharged by the presidency of Barack Obama – one of the most radical, destructive and utterly dishonest chief executives in American history – and continuing into our current time under the demented and epically corrupt Joe Biden, long-coalescing forces of the political,

cultural and sexual Left have finally succeeded in bringing about their long-promised “fundamental transformation of America.”

But there’s more – much more.

The bigger story is, this revolution is also causing a “fundamental transformation” of *Americans*, as I explore in the new edition of my book, [“The Snapping of](#)

[the American Mind: Healing a Nation Broken by a Lawless Government and Godless Culture.](#)” In this newly revised and expanded paperback edition, I reveal how the radical Left – which today dominates virtually all of America’s key institutions – is accomplishing far more than just enlarging government, redistributing wealth, de-Christianizing the culture and generally wrecking our country. With its wild celebration of sexual anarchy, its intimidating culture of “woke” political correctness, its perverse incomprehension of the fundamental sacredness of human life, and – as is increasingly evident – its blinding hatred of Almighty God, our

leader class is not only negatively transforming the greatest nation in history. It is also actively *promoting* widespread dependency, debauchery, family breakdown, violent crime, corruption, suffering, addiction, mental illness, despair and suicide.

This is what I explore in the new edition of "[Snapping,](#)" which includes brand-new chapters illuminating the astonishing "1984"-style attacks on America taking place under the deranged presidency of Joe Biden. I invite you to read the reviews below to get others' assessment of how I did.

Fortunately, contrary to what our leader class believes, there actually *is* a great

and all-powerful God, and therein lies the hope for America. As I lay out in this new edition of [“The Snapping of the American Mind,”](#) there really is a way back for the country Reagan liked to call “this shining city on a hill.”

Check out what others are saying about David Kupelian’s [“The Snapping of the American Mind.”](#)

Laura Ingraham, Fox News host:

"David's a compelling writer, and the way he presents the narrative of what's happened to our political psyche, our spiritual psyche – all of it – is really compelling. It's a page-turner. I really urge you all to get this book. ... Some

people may think, 'Oh, I already know all this stuff. We're going to hell in a handbasket, why do I need to read it?' Because you need to know the way out! And we need to help each other."

Sean Hannity, Fox News host and

top-rated radio talker: "David

Kupelian is one of the most thought-provoking and iconoclastic writers I know. ... A must-read if you really want to understand the world we live in and where it's headed."

Dinesh D'Souza, bestselling author

and documentary filmmaker: "David

Kupelian's 'The Snapping of the American Mind' chronicles the decline and fall of America and shows that it is

no accident, but rather a direct result of progressive misrule – an eye-opening, scary and galvanizing book."

Michele Bachmann, former member of Congress and GOP presidential candidate: “Read it!”

Joseph Farah, WND founder and CEO: “*The Snapping of the American Mind*’ is so unique and deeply affecting that I believe it could actually influence the presidential race and even the future of our country.”

Paul Kengor, bestselling author of “The Devil and Karl Marx” and “God and Ronald Reagan,” and political science professor at Grove City College: “*David Kupelian is a fearless*

writer, unafraid to take on the nasty, intolerant secular left that continues to remake America in its own image. ... David has once again given us a must-read in these times of political turbulence and cultural insanity.”

Terry James, author, prophecy expert and editor of Rapture Ready:

“The Snapping of the American Mind’ is the volume you must get, read and study to be brought into full realization of what today’s madness is all about.

... You will be swept along, as was I, by author David Kupelian’s masterful dissection of every nuance of the national turmoil in which we’ve been embroiled ... This book is truly the best

volume I've found for exploration of, in real time, causes and effects of the reprobate mind (Romans 1:28) – that irrational, evil, dissidence collectively suffered by many in America today.”

Matt Barber, attorney, author, columnist: *“Maybe once in a generation are we so graced with a communicator like veteran journalist and best-selling author David Kupelian. His matchless ability to unpack the complicated issues of our day with simplistic precision is nothing short of genius, a gift from God he has shared once more in his latest book, ‘The Snapping of the American Mind.’*

“When David puts pen to paper, it ‘has

the same effect on your brain that yawning has on your ears at high altitude. Things just suddenly pop with crystal clarity.' The closest comparison I can make to David Kupelian is author and Christian apologist C.S. Lewis. As a Lewis enthusiast of the first order, I don't make that comparison lightly.

"In 'The Snapping of the American Mind,' Kupelian one ups himself by exploring, in lucid detail, the root cause of our current age of lawlessness and moral anarchy. Yet, somehow, he manages to leave us filled with hope for American revival and renewal.

'Snapping' is just the book America needs for a time such a time as this."

David Barton, historian, author, founder of WallBuilders: *“In 'The Snapping of the American Mind,' David Kupelian makes it crystal clear that the Left’s first and ultimate target is none other than the American mind itself. In an era when our nation’s Judeo-Christian foundation is coming under increasingly open and brutal attack, Kupelian’s powerful and redemptive book couldn’t have come at a better time.”*

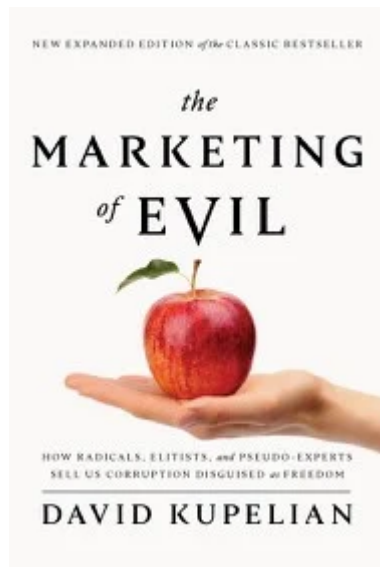

Lyle Rossiter, M.D., forensic and general psychiatrist and author of “The Liberal Mind”: *“Everyone who loves freedom should read ‘The Snapping of the American Mind.’ ... A*

stunning exposé of all that is evil and delusional in the Liberal-Progressive plan to destroy the American miracle. A moral tour de force!”

Dr. Ted Baehr, Chairman of the Christian Film and Television Commission, and publisher of MovieGuide®: *“David Kupelian is one of the very few must-read writers in the 21st century.”*
