The current apocalyptic events rapidly unfolding across the planet in 2022 foreshadow a future for humanity that can hardly be grasped, even by the initiated.

Truly, the highly consequential war in Ukraine signifies the proverbial point of no return for the entire planetary civilization. That's because the Ukraine War represents nothing less than the long prophesied epoch-ending clash of civilizations. In other words, the full-scale war raging between Russia and Ukraine within Ukrainian borders is merely a microcosm of a much larger macrocosmic war occurring worldwide.

Zio-Anglo-American Axis vs. BRICS

What the present human race is now witnessing is a last-ditch attempt by the Zio-Anglo-American Axis to forever defeat and enslave the BRICS-aligned nations. That means the US-UK-EU-NATO international crime syndicate is closely collaborating with numerous co-conspirators the world over to shock and awe Russia into submission via an overwhelming hybrid war—mostly using economic warfare and financial terrorism. These same inveterate

warmongers and hardened war profiteers will then employ the same attack strategy against China, India, Brazil, South Africa, Iran, Venezuela, Cuba, North Korea, etc.

However, the satanic decision-makers at the very peak of the pinnacle of the world power pyramid know that these efforts by the Western powers to subjugate those BRICS-aligned nations will ultimately serve to hasten the crash and burn of the Global Economic & Financial System (GE&FS). Which means that the once *Almighty Dollar* will soon be dethroned as the world's primary reserve currency before it's dispatched to the ash heap of history. How could it not be when oil and gas guzzlers like Russia, China, India et al. are systematically terminating the petrodollar — FOREVER — as their primary currency for all energy transactions.

KEY POINT: The most destructive wars going on right now are taking place in the economic and financial realms. The currency and commodity battles are so fierce that the world will soon undergo an unprecedented period of uninterrupted economic shock and financial awe. This devastating economic warfare and financial terrorism will be experienced by every person on the planet, except, of course, those “financial masters of the universe” who are pushing the buttons on this heretofore slow-motion controlled demolition of the GE&FS.

In the wake of this highly premeditated war and purposeful mayhem exacted by the cabal against nations large and small, the international order — in its totality — will be thrown into so much chaos, confusion and conflict that the reptiles at the very top of the planetary food chain will be able to take full advantage in order to execute their time-tested *Ordo ab Chao* game plan.

Exactly what is that game plan?

Let's first revisit some germane history to properly comprehend the *Ordo ab Chao* blueprint that's being swiftly executed around the globe.

History Repeats Itself

Whereas the manmade Spanish Flu Pandemic of 1918 was deliberately carried out by the *New World Order* globalist cabal to parallel the Bolshevik Revolution in Russia during the last year of World War I, so, too, was the Covid Pandemic hoax foisted on the world community of nations just before the triggering of World War III in Ukraine, and, as a prelude to a Democrat-sponsored bolshevik revolution in the United States.

It's of paramount importance to correctly understand the preceding factual history. While this recapitulation of past and present represents only one dimension of the vast implementation plan known as the *New World Order* agenda, it's a crucial piece of the puzzle toward the establishment of a **One World Government**. For the American Republic must be completely conquered, and her countless armed citizens subjugated, if *The Powers That Be* are to be successful in forming a global totalitarian government that combines the most oppressive elements of communism and fascism, marxism and socialism, bolshevism and predatory capitalism, neoconservatism and neoliberalism.

Simultaneous Global Cataclysms and Regional Catastrophes

- The **Fourth Industrial Revolution** commenced decades ago (under the radar) with the advent of the Information Age, saw an explosion of development with the Internet, and was greatly accelerated under cover of the Covid *Plandemic* (e.g. Military Deployment of 5G, Roll-out of *Internet of Things*, Starlink's Satellite Internet Constellation, Smart Cities, etc.).
- The **Covid Plandemic** launched in 2019/2020 as a forever pandemic will be strategically morphed into other pandemic hoaxes, which will then provide more cover for the GREAT RESET whenever needed. The 2020/2021 Covid time frame was intentionally utilized to establish a new global paradigm and framework whereby nations and societies, states and provinces, cities and counties could be summarily locked down in a day and a night under a false pandemic pretext.
- The hot phase of **World War III** has started in Ukraine as the trigger event for the long-predicted armed conflict between the East and the West to set the stage for a permanent re-arrangement of the global geopolitical chessboard. The First and Second World Wars were prosecuted by the same warmongering tribe of banksters and for the same reasons. See: [There's only one tribe that can successfully pull off the slo-mo collapse of the entire planetary civilization.](#)
- The controlled demolition of the **Global Economic & Financial System** was set in motion, first, with the US government-coordinated 9/11 terror attacks; then, by the 2008 Lehman Brothers collapse and subsequent stock market crashes; which was followed by the Great Recession of 2009. 2022/2023 will see the grand finale of this multi-year controlled demolition with World War III serving as a powerful catalyst while providing the perfect explanation for the well concealed perpetrators.
- The **Second Great Depression** was initially triggered by the manufactured 2007/2008 market collapses (real estate and equities, respectively) and will intensify considerably in 2022/2023. Inasmuch as 2022 marks the dreaded Shemitah year, 2023 is distinguished as the Shemitah Jubilee which translates to a [FINAL] bursting of the many massive market bubbles, especially the global debt bubble.
- The **GREAT RESET** has begun in earnest with cryptocurrency acceptance and will only accelerate with the coming monetary meltdowns and currency collapses, while continuing for several years if not decades. The official institution of digital currencies and systematic use of other cryptocurrencies will spell the end of liberty (and common rights) wherever they still exist.

When the *Almighty Dollar* ruled the land

The five foregoing worldwide events have each been quite well planned over many decades, if not since the Federal Reserve Act of 1913. For it was that unconstitutional and covert criminal act that led to the creation of the predacious *Central Banking Cartel* (e.g. Federal Reserve System, Bank of England & Bank for International Settlements), as well as to the substantial empowerment of the *International Banking Crime Syndicate* (e.g. Rothschild- and Rockefeller-owned banks, World Bank & International Monetary Fund).

Once those two exceedingly corrupt and criminal quasi-corporate entities were given virtually absolute power over the U.S. Federal Government, the whole world entered an extraordinarily dark and dangerous phase. For the most malevolent traitors to the American Republic deceitfully used the good name and tax revenue from the American people to stealthily implement a “scorched earth strategy” anywhere an 800-pound gorilla armed with a flamethrower wants to.

Because the power elite is hellbent on taking down the whole place in order to escape all criminal prosecutions related to so many multi-decade government/corporate crime sprees such as the *Super Vaccination Agenda*, as well as international crimes waves such as **OPERATION COVID-19**, they will stop at nothing until they're no longer facing existential threats. Which is why the perps were compelled to frenetically “wag the dog” via starting a full-blown WW3.

Fearful Power Elite + Failed Covid Plandemic **= Distracting World War 3**

In light of these stark realities, the second decade of the Third Millennium will likely become known as the *Great Tribulation*. The first two years brought a terrible manmade ‘plague’ upon humanity only to be followed by a horrific war, financial breakdown and economic depression. Liberal-leaning western countries such as the US and UK have already undergone an irreparable tearing of their social fabric via **Cultural Marxism** making communities far less able to deal with the upcoming challenges and tremendous difficulties.

The remaining years of this decade will surely be marked by an ever-accelerating downward spiral in every sphere of life, particularly in the USA. It's as though America is competing in its final race to the bottom ... of everything. The profoundly repugnant warmongering by the Biden administration in Ukraine and aggressive inflaming of Russophobia sentiments worldwide has set a new low in America's foreign meddling and serial warmongering.

THE MOST PERILOUS MOMENT OF **THE THIRD MILLENNIUM—Why?!**

But what hidden forces have methodically brought these once United States of America to this defining moment in human history?

Only by accurately answering that critical question, and then decisively acting on it with all deliberate speed, is there any hope of averting the multifarious calamities on the horizon.

HINT: There's only one tribe that can successfully pull off the slo-mo collapse of the entire planetary civilization.

Conclusion

It's totally true: the American people must act with strength ... before they are forced to react from a position of

weakness.

Despite being only moments to midnight, there are still some alternatives available to those good folks who believe that the *Highest Power* can do anything that's required to save the day.

Perhaps it's time to put our hands together and pray like there's no tomorrow because if we don't at this late hour, there won't be a tomorrow.

After all, divine intervention only appears when a sufficient number of sincere souls humbly and prayerfully call out for help.

SOTN Editor's Note: What we are really dealing with is an incorrigible cabal of criminally insane psychopaths who belong to literally demonic bloodlines stretching back millennia. Quite remarkably, these warmongering sociopaths and genocidal maniacs have successfully infected the masses with their own psychopathological madness. For example, a large swath of humanity has been mind controlled into believing that Russia is the bad guy. A vast majority of Americans actually believe Biden's naked war propaganda and nonstop prevarication where it concerns President Putin and the Kremlin's clearly stated positions. This exceedingly unfortunate state of affairs nationwide is what happens when [THE POWER ELITE HAVE GONE COMPLETELY MAD!](#)
