**The Annihilation Of America Is Being Emboldened & Empowered By The Terror Cabal Occupying The White House As Cities Implode And America Is Transformed Into A 'Zombified Nation'**

**- War Waged On Americans Is More Proof 'The Great Replacement' Is Happening Now**

[By Stefan Stanford - All News Pipeline - Live Free Or Die](#)

Just 10 days ago on August 2nd, Susan Duclos published [this story on ANP](#) titled *"Coming To A Neighborhood Near You': Dem Sanctuary City Mayor Warns Americans Of The Destruction Illegal Immigration And Open Borders Are Causing - The Great Replacement Is Real"* within which she warned numerous so-called 'sanctuary cities' across America are collapsing within their own hypocrisy.

With [NY City Democrat mayor Eric Adams warning](#) the massive illegal immigration crisis they're seeing in NY City will soon be coming to other neighborhoods across America, his warning is many years too late and many dollars too short, with many warning years ago about *'the Great Replacement,'* called a *'racist conspiracy theory'* by [the SPLC](#) and mainstream media and globalist politicians, but now coming true before our very eyes.

As [this Daily Mail story](#) reporting on the growing crisis points out by showing us photographs of the large number of illegal immigrants sleeping on the hard concrete sidewalks outside of hotels in NY City after being dumped there after crossing over the US border illegally on Joe Biden's watch, the city will be spending over \$4 billion dollars just to TRY to deal with this *'crisis'*, over \$100,000 every day, paid for by the taxpayers.

But with what's being seen now in NY City just a tiny part of the overall crisis, with many more cities all across the nation having fallen into a deep crisis of homelessness, drug addiction, rising crime rates, *'escaping'* millennials taking their tax dollars with them and despair, and the huge majority of those cities being run by Democrats, it still gets much worse.

Because not only are homeless families coming across the border illegally but as Fox News [pointed out in this story](#), we're now witnessing *body armor wearing drug cartel members, who were also fully armed*, walking across the wide open border with no resistance at all. **"Emboldened and empowered by a president who does not care about our southern border"** according to Texas Republican Representative Chip Roy who also [declared Tuesday](#) that **"the president and this administration can go straight to hell."**

With Chip Roy in that last statement expressing sentiments that a rapidly growing number of Americans will agree with completely, as we'll be exploring below, we're also now seeing the Lt. Gov of the state of Massachusetts [suggesting people](#) in that state HOUSE these illegal immigrants who are now laying upon the sidewalks thanks to leftist hypocrisy within their own homes, offering them free room and board, at a time when more and more Americans are unable to pay their own bills. And all of that madness happening while we're witnessing a very real war being carried out against American citizens.

***ANP Emergency Fundraiser: The globalists war on ANP is all part of the globalists 'Big Tech' effort to silence conservative and independent voices, allowing them to maintain a monopoly on the flow of information. As George Orwell made clear to us decades ago, "The further a society drifts from the truth, the more they will hate those who speak it." But, [with your amazing help](#), we at ANP promise to keep 'speaking truth to power' because, as Orwell also reminded us, "If liberty means anything at all it means the right to tell people what they do not want to hear."***

As [Susan Duclos had reported on June 6th on ANP](#) in this story titled *"'Dystopia' Is Here: Look At Democrat-Run Cities, Open Drug Use, Crack Pipe Vending Machines, Openly Graphic, Gay BDSM Displays In Front Of Children - This Is What They Want For All Of America,"* we don't have to look too far to see the globalists plans for the entire nation by looking at what's happened to leftist run cities nationwide.

With one of the horrifying new 'trends' we're witnessing being just how many people are literally '*stumbling around town*' as seen in the photograph above, having become addicted to the horrifying new '*zombie drug*' called '*tranq*' on the streets that eats the flesh off of the bones of the users, leaving them looking like extra's in a Hollywood horror movie, it's no wonder that [suicides have risen to a record high under 'Bidenomics'](#) as more and more people go homeless, putting off their retirements because of rising debt and a skyrocketing cost of living.

Yet as we've seen in these leftist-run cities nationwide, instead of doing something about this growing problem being added to all of the others, leftist-run cities are refusing to prosecute criminals and

funding drug shooting stations while buying addicts needles, all paid for by the taxpayer.

And as we now see in a new story over at the Boston Herald, the Lt. Gov of Mass. wants people in their state to house all of these illegal immigrants in their own homes, for free. So many have warned that this was the direction we were heading but most refused to listen. The excerpt below from Howie Carr [at the Boston Herald in this story](#) titled "*Get real! Lt. Gov. Driscoll wants Massachusetts families to house migrants Biden now Bay State can't solve crisis so turn to taxpayers, as usual.*" From that [story](#).:

*Is the state of emergency over yet?*

*I mean, it's been a couple of days now since the governor and lieutenant governor of Massachusetts asked their big-hearted Democrat constituents to step up and offer free room and board in their gated communities to the teeming hordes of Third World criminals yearning to live, er, breathe free.*

*Surely the crisis has passed.*

*Every trust-funder in the Bay State surely must be stepping up to the plate, because we've all seen the yard signs outside their \$5 million mansions.*

*"Hate Has No Home Here."*

*Lt. Gov. Kim Driscoll may have put it most brilliantly at her press conference:*

*"If you have an extra room or suite in your home, please consider hosting a family."*

*An extra suite! It used to be that some real-estate listings would prominently mention the home's "in-law suite."*
