

COVID-19 Was Not An Epidemiological Event... It Was A Money Laundering Scheme

“Manufactured pandemics are now mammoth investment opportunities that increase the wealth of billionaires and further consolidate their power.”

“Put simply, COVID-19 was not an epidemiological event, it was a money laundering scheme, a smoke screen for economic/social restructuring towards total control and a massive psychological operation among a few other items.

“Two and a half years later, as bureaucrats and politicians wind down the COVID-19 restrictions in order to quell growing unrest, we can be assured they will insist on retaining the “right” to re-impose them at will.

“As long as “new variants lurk right around the corner”, public health bureaucrats and pandemic profiteers can invent the next “health emergency” to impose more shutdowns for any “viral event” that conveniently suits their political and financial aims.

“While the COVID-19 propaganda has vanished it is imperative we keep the mountain of lies under scrutiny and continue unveiling the massive corruption that defines the “COVID-19 Era.” This is the only path towards justice and is necessary to defend against future episodes of “pandemic” hysteria.

“Ultimately there can be no comprehensive debate and complete understanding of the devastating consequences of the ‘COVID-19 Crisis’ policies without a historical and up-to-date analysis of the Medical Industry’s role in pushing socioeconomic and political agendas which benefit the ruling elites.

“It is vital to understand that the public health industry is now directly tied to global markets and operates based on the demands of those financial conglomerates. Manufactured pandemics are now mammoth investment opportunities that increase the wealth of billionaires and further consolidate their power.

“It is also necessary to recognize that the primary purpose of the medical industry is no longer the “art of healing”, it has become a financial instrument benefiting investors.

We the people must also recognize that the Medical Industry has now been fully weaponized as a punitive system designed to process, dehumanize and control every single person in the system. Before our very eyes, we have seen up close how mere biological existence is criminalized by that system.

“Though the story of the fraudulent “COVID-19 Pandemic” is nearly over, the sorcery that created it has not been exorcised.

The urgent message that we must take from these past two years is that we are under sustained psychological warfare and have been for quite some time.

“We won’t have truly won until it is universally established that Medical Freedom is not a negotiable commodity controlled by state bureaucrats, political opportunists or the medical cartel.

“Nothing has been won until the ideology that the state controls our bodily autonomy has been thoroughly repudiated.

“This story is not finished until the individuals and institutions that deceived the public and censored and persecuted dissenting voices over the past two and a half years are publicly held accountable, prosecuted and imprisoned.

"The COVID-19 phenomenon cannot be understood without understanding the un-televised 2019/2020 unprecedented financial collapse threatening the entire global financial system."

If you view this whole 'pandemic' situation through the lens of health, safety, science and saving lives, then most of it makes little sense. If you view it through the lens of money, power, control, and wealth transfer, then all of it makes perfect sense.

COVID-19 is not an epidemiological story. COVID-19 is a crime story.

COVID-19-19 is the biggest money laundering scheme in the history of the world.

The lockdowns, mandatory muzzles, anti-social distancing and the other measures did nothing to protect or improve public health - they were never designed to do so.

They were all designed to deliberately break the global economy (and crush competition, especially small businesses) as well as break people's minds, will and the social fabric, in order to “build back better”, according to the diabolical and dystopian visions of the psychopaths waging this class war, which is essentially a billionaires utopia, in which they own the planet like a techno-feudal fiefdom, and oversee the drastically reduced population of digitally branded humanity like cattle in a super-surveilled technocracy.

What we are in the midst of is a planned total economic collapse.

This economic collapse was inevitable, Western governments are putting the security infrastructure into place, trying to proactively control the inevitable social disorder which will result from this collapse.

To be followed by a global financial reset, after a period of hyperinflation, which destroys both the value of debt and the corresponding paper claims.

There is not now nor has there ever been an epidemiological or viral emergency event of any sort anywhere in the world in the year 2020.

The manufactured perception that there was such an event is an artifact of mass media manipulation, behavioral conditioning techniques and social engineering.

All of this has been made possible through institutional programming and accelerated media messaging disallowing basic cognitive processes and eliminating critical thinking possibilities.

The collapse started in 2008 and attempts to salvage this corrupt economic system only delayed the inevitable.

In the Fall of 2008 the crisis began to rapidly unravel again.

There was a dramatic decrease in industrial production which showed-up in the banking crisis of August of 2008... the so-called Repo crisis when suddenly banks started to refuse U.S. sovereign debt instruments as collateral for overnight loans forcing the Federal Reserve to step in and basically print money to cover this massive shortage.

The Repo market is where banks borrow money each day so that they have 10% liquid assets at the end of each day. If they do not have 10% liquid assets they are not allowed to open the next day.

Around the middle of September, the Fed started pumping \$20 billion per day into the Repo market to keep interest rates down so banks could borrow the money to stay in business.

By the end of December the Fed was pumping over \$100 billion per day into the Repo market and it was still not enough.

Simply put, everyone on Wall Street was loaded with enormous debt and was holding on to U.S. cash to be able to service it refusing to finance purchases of foreign currencies and then US currency as Repo Market froze at 10% interest on overnight Repo loans as US treasury bonds and even US bills were rejected as collateral for Repos.

What happened in March 2020 was just the spread of the liquidity crisis from primary dealers markets (TBTF banks and Hedge funds were actually bailed out in September) toward all other stock, commodities, bonds CLOs, MBS etc, as well to Ponzi schemes called today ETF funds, not to mention structured derivative products traded on proprietary platforms nominally representing up to several thousands of \$\$\$ trillions.

When US treasury bonds and even USTB became illiquid due to exponential growth of public (but most of all private) dollar debt while the FED was sucking up cash from financial markets by tempering QE (called

QT) between 2017 and 2019 reduced FED balance sheet from over \$5 T to \$3.9T by selling assets, all hell broke loose. Something drastic had to be done.

And hence the FED started to “buy all worthless shit for double the price”, Gates’s and Silicon Valley gang took over the media, and Orwellian shrinks and doctor Fauci-Mengeles came to the “rescue” unleashing operation COVID-19.

The COVID-19 phenomenon cannot be understood without understanding the un-televised 2019-2020 unprecedented financial collapse threatening the entire global financial system.

The COVID-19 fraud timing became necessary as the world markets were faced with an emergency debt crisis that popped-up in formerly mostly liquid markets: Repo markets, money markets and FX markets.

The entire House of Cards was falling for six months and could not be stopped, so COVID-19 hysteria was manufactured to cover-up what amounts today to \$11 trillion of Fed bailout in cash, stock boost via POMO and guarantees of value of collateral used in structured derivatives.

The end game is that the central banks (Fed) will buy all the toxic, worthless debt from the hedge funds and banks, including the 1.5 quad trillion of derivatives, and then transfer the debt to the treasury as sovereign debt.

Then print money to infinity to service the fictitious debt to sink the dollar via hyperinflation and then foreclose on the US and everyone else holding debt in worthless dollars.

That’s the coup.

There will be global hyperinflation to vaporize the assets of the masses and the states, as soon as the ruling class mops-up the last properties.

What this means is the ruling class have limitless claims on everything in the world.

Simply put, the seasonal coronavirus was rebranded as COVID-19 19 on the back of a redefinition of what a 'pandemic' was by the WHO at the bequest of its financiers. This unlocked access to financial incentive programs that were large enough to bail-out every failing economy.

COVID-19 19 is the final heist to strip all value out of the world in an effort by the creditors to consolidate what they believe they're owed.

These governments know full well that "COVID-19" is being used as cover for crashing the economies in the Western world.

There is not now and never has been a "pandemic" - that is all Kabuki theater to disguise the reality of the rapid economic decline brought on by the Ponzi Schemes of financial institutions over the past few decades.
