Virus R & D

See Wikispooks' full article: *COVID-19/Origins*

A lot of evidence suggests that SARS-CoV2 did not occur naturally, but was genetically manipulated from a naturally occurring bat coronavirus and possibly parts of additional viruses ^[2]. Bilderberg members have done important work in developing the CRISPR gene editing technique:

Bernard Cazeneuve – 2018 – In 2017 attended the founding ceremony of the BSL-4 lab at the Wuhan Institute of Virology, together with Yves Lévy, whose wife abruptly banned over-the-counter sales of hydroxychloroquine in France in January 2020, ^[3] declaring it “poisonous” without explanation. ^{[4][5]}

Emmanuelle Charpentier – 2016 – Pioneered CRISPR as a tool for genome editing (for which she was co-recipient of a Nobel prize in 2020)

Sean Parker – 2010 – Billionaire who was the first to gain NIH approval for a trial of CRISPR

Pandemic Planning

See Wikispooks' full article: *Pandemic/Planning*

Preventing Global Catastrophic Biological Risks, held in February 2020 before the Munich Security Conference, attended by three veteran Bilderberger pandemic planners: Gro Harlem Brundtland, Sam Nunn and Avril Haines

Many Bilderbergers have worked repeatedly at Pandemic Planning; the group has been well represented at such exercises for at least 20 years.^[7] Those with the most obvious ties:

- Gro Harlem Brundtland – 1982, 1983, introduced A Spreading Plague (2019 Pandemic planning exercise), and attended Atlantic Storm, and the February 2020 Preventing Global Catastrophic Biological Risks exercise
- Avril Haines – 2017 – US Deep State actor who participated in Event 201 and the February 2020 Preventing Global Catastrophic Biological Risks exercises. Deputy Director of the CIA 2013-15, Director of National Intelligence since 2021
- Sam Nunn – 1997, 1996 – Long experience in pandemic planning, Operation Dark Winter, A Spreading Plague, the February 2020 Preventing Global Catastrophic Biological Risks exercise
- Judith Rodin – 2005 – As President of the Rockefeller Foundation took part in the Lock Step exercise which foresaw a pandemic as the means by which a techno totalitarian government might unfold.

Judith Rodin took part in the 2010 Lock Step exercise about using a pandemic to usher in high-tech totalitarianism

Task Forces

See Wikispooks' full article: *COVID-19 Task Force*

In Spring 2020, many nation states formed COVID-19 Task Forces, many of which had, or acted as if they had, “state of emergency” powers to override standard operating procedure.

National Task Forces

Social change

The “response” to COVID-19 was a sweeping set of social changes enforced by fiat, having minimal scientific justification, if any. They directly contradicted best practices up to 2020.

- Stefan Löfven – 2013 – As Swedish PM, managed the Swedish Covid measures.^[27]
- Mary Ann Sieghart – 2001 – Presented *Fallout* on BBC Radio 4, a series about the possible outcomes of the Coronavirus.^{[28][29]}

Lockdowns

See Wikispooks’ full article: *COVID-19/Lockdown*

A WEF tweet which was quickly deleted after it raised criticism.

Most nation states decreed what was termed a “lockdown”, i.e., a drastic restriction of freedom of movement. This was in opposition to the 2019 WHO best practice guide for pandemics, which specifically advised against this practice. As of Summer 2021, there is little scientific evidence that these measures had any measurable impact on the spread of COVID-19, but this claim remains part of the COVID-19 official narrative.

- Bill Morneau – 2017, 2016 – as Canadian Finance Minister in 2020 “approved the spending of nearly \$200 billion in federal aid in a deliberate effort to shut down huge portions of Canadian society”^[34]
- Norbert Röttgen – 2014 – As chair of the CDU he was promoting the German Covid lockdowns ^[35]

Big media

The non-reporting of Bilderberg by TV or newspapers reveals that the group has considerable control of big media, which was mobilised to support the official narrative.

- Juan Luis Cebrián – 2018-2001, 1993, 1990-1987, 1985, 1983- Billionaire, media mogul, one of the ten most influential Spaniards in Spain and Latin America for 44 years (from 1976 to 2019).

Promoting panic

Infected man’s horrifying experience of COVID-19 is the scariest you’ll read

A terrorism expert who developed a “completely mad” case of COVID-19 despite having no underlying conditions has described just how bad the disease can get.

Marnie O'Neill  [marnieoneill7](#)
[news.com.au](#) March 30, 2020 12:31pm

In March 2020 Shiraz Maher wrote a first-hand account of his mild case of COVID-19.

Commercially-controlled media’s coverage of COVID-19 was a more-or-less monotone echo of the fear-driven official narrative, while calmer, more scientific voices “were never invited to the expert table”, as the editor of Bild admitted in August 2021. [69]

- Shiraz Maher – 2015 – A “Terror expert” who reportedly had a case of COVID-19 which was “classified as “mild” by British health authorities”. Maher wrote a “horrifying account of his experience with COVID-19” which was picked up by the commercially-controlled media after it “went viral” on Twitter. [70]
- John Micklethwait – 2019-2009, 2007 – Co-authored *The Wake-Up Call* with Adrian Wooldridge. A promotional article, *How the West was lost*, concluded “For all its awfulness, the Covid-19 pandemic is an alarm call... It’s not too late to wake up to the fact that the West is losing its pre-eminence. We still have time to repair the damage. But we don’t have that much time — and the Eastern world is forging ahead while we are still dithering. Whatever we do, we cannot afford to hit the snooze button.” [71]
- Kenneth Rogoff – 2012 – Former IMF economist whose dire predictions in early 2020 were widely reported in commercially-controlled media. [72] Also predicted that COVID would speed the move away from cash [73]

“Every time I open the [obituary](#) pages of the local [newspaper](#), I find so many people that I know have died. A whole generation is being wiped out.”
 Beppe Severgnini (25 April 2020) [74]

Beppe Severgnini – 2017 – Italian editor/journalist who reported from north Italy in March 2020, stating in April 2020 that “a whole generation is being wiped out”.

"There will be no recovery. There will be social unrest. There will be violence."
Jacob Wallenberg (26 March 2020) ^[75]

Jacob Wallenberg – 2016-2000, 1998 – Issued dire warnings of social unrest in March 2020 reported by commercially-controlled media ^[76]^[77]

'There will be violence' Terrifying prediction for world if coronavirus crisis continues

THE CORONAVIRUS crisis could lead to social unrest, violence and mass unemployment, a business expert has warned.

By **KATIE HARRIS**

13:12, Thu, Mar 26, 2020 | UPDATED 14:06, Thu, Mar 26, 2020

From “business expert” Jacob Wallenberg, a third-generation Bilderberger.

Adrian Wooldridge – 2012-2004, 2002-1998 – Co-authored *The Wake-Up Call* with John Micklethwait.

Opinion polling

- Nicolas Berggruen – 2014 – Billionaire funder of various groups including the Berggruen Institute, which has been researching COVID-19 as a social change agent ^[78] and influencing attitudes and policies about it. ^[79]
- Renate Köcher – 2018 – A German pollster who researched attitudes to COVID-19 and was interviewed about them by corporate media ^[80]^[81]

Censorship

See Wikispooks' full article: *COVID-19/Censorship*

“I urge world leaders to fully support the Global Vaccination Strategy I launched with the World Health Organisation last month. We need to get vaccines into the arms of 40 per cent of people in all countries by the end of this year [2021] — and 70 per cent by mid-2022.”

António Guterres – 2005, 1990 – In March 2020, as UN secretary general, asked for increased censorship by big tech of online “hate speech” in response to COVID-19. In October 2021, advocated swift vaccination of the whole world’s population.^[82]

Big tech is notoriously opaque in its censorship, which reached record heights in 2020/21 on the topic of COVID-19^[83], as predicted by Event 201. Involvement in censorship is difficult to prove, but it seems likely that censorship was carried out with the agreement of (or at the behest of) the following chief execs:

- Jared Cohen – 2019, 2018 – Jigsaw CEO (formerly Google Ideas)
- Reid Hoffman – 2019-2014, 2012, 2011, LinkedIn Executive Chairman
- Robert Kimmitt – 1995 – Appointed Facebook’s “lead independent director” in March 2020^[84]
- Patrick Pichette – 2018 – Appointed Twitter’s CEO in June 2020.^[85]
- Eric Schmidt – 2019, 2017-2007 – US billionaire who works for Alphabet, with a track record of arranging YouTube censorship of dissent.^[86]
- Jens Stoltenberg – 2002-2015-2017-2018-2019 – NATO General-Secretary. Using censorship mechanisms established during Russiagate, NATO played a role in “combatting the spread of harmful, false and misleading narratives through disinformation.” ^[87]

“Vaccines”

See Wikispooks’ full article: “*COVID-19/Vaccine*”

Audrey Azoulay, UNESCO Director General, “Every day, people are searching for a path out of the COVID-19 pandemic. Now, scientific international cooperation and vaccines have created hope that a brighter future is within reach...”^[88]

The experimental gene therapies always referred to by commercially-controlled media as “COVID-19 vaccinations” received emergency use authorisations which could not have been given if alternative treatments were available. It was, therefore, necessary to side-line drug therapies.

R & D

The interviewer, John Snow covered his mouth after this remark, interrupted him, hesitated and did not ask any further questions.

John Bell – 2013 – Gates Foundation, GAVI researcher whose interests include DNA mutation, on the UK Vaccine Task Force, who stated in an interview that “These [COVID-19] vaccines are unlikely to completely sterilise a population. They’re very likely to have an effect which works in a percentage. Say, 60% or 70%.” [89]

Side-lining repurposed drugs

Jens Spahn was made German Health minister after attending the 2017 Bilderberg, rejected a donation of hydroxychloroquine in 2020^[90] and stated that “vaccines are the way out of this pandemic”

Side-lining of drugs to treat the disease was a requirement for the granting of Emergency Use Authorisation of the experimental jabs. Many Bilderberg-controlled groups, such as Médecins Sans Frontières, termed repurposed drugs “disinformation”.^{[91][92]}

- Werner Baumann – 2017 – CEO of Bayer, who in early 2020 initially announced a plan to create a Chloroquine production facility in Europe,^[93] which transitioned to a partnership with Curevac to create CVnCoV, a COVID-19 Vaccine candidate.^[94]
- Hans-Georg Betz – 2000 – “It boggles the mind that the very same people who are worried about the potential side effects of COVID-19 vaccines have absolutely no qualms playing Russian roulette with their health when it comes to ivermectin... COVID-19 denial in all its different forms is like a cult.”^[95]
- Trine Eilertsen – 2015 – Promoted to Editor in chief of *Aftenposten* in 2020, a paper as of June 2021 which was questioning the need for “experimental treatment” of COVID-19 cases with ivermectin.^[96]
- Jens Spahn – 2017 – German Health minister since March 2018, close to big pharma.^[97] Was specifically requested to look into ivermectin as a tool to control the spread of the disease,^[98] but moved towards mandating vaccines and stated that “vaccines are the way out of this pandemic”.^[99]

Liability Evasion

Evan Greenberg – 2017, 2014 – Chairman and CEO of Chubb, “pleased to extend our collaboration with the World Health Organisation and its partners to support the critically important COVAX No-Fault Compensation Program.”^[100]

Production & distribution

- Clément Beaune announcing the vaccine strategy

- Ian Bremmer – 2007 – Founded the Eurasia Group, whose 2020 study on access to COVID jabs “to assess the economic benefits to advanced economies of contributing to the work of the Access to COVID-19 Tools (ACT) Accelerator” the WHO cited.^[103]
- François-Philippe Champagne – 2019, 2018 – In August 2021, as Canada’s Minister of Innovation, Science and Industry, announced Canada has established an MOU with Moderna to build a state-of-the-art “mRNA vaccine” production facility in Canada.^[104]
- Leif Johansson – 2000, 2001 – non-executive chairman of AstraZeneca ^[105]
- Alex Karp – 2019-2012 – Co-founded Palantir, which has been active internationally ^[106] with COVID,^{[107][108]} and provided the software for Operation Warp Speed.
- Jared Kushner – 2019 – Charged with fast-tracking a Covid vaccine, announced Operation Warp Speed.^[109]
- Jacek Sz wajkowski – 2005 – Co-owner of KIPF, a holding company for Pelion Pharma, which the EBRD granted PLN 110M “to actively manage working capital needs across business lines in light of increased sales volatility caused by the Covid-19 outbreak.”^[110]

Peter Thiel, Co-founder and largest shareholder of Palantir, which is heavily involved in crunching COVID data.

Peter Thiel – 2019-2007 – Co-founder and largest shareholder of Palantir as of 2020

“It is by coming together on vaccine research, mass production and distribution, that we will deliver safe and fair access to vaccines to all that need it, leaving no one behind.”

Jutta Urpilainen (3 February 2021) [111]

Jutta Urpilainen – 2013, 2012 – European Community Commissioner for International Partnerships, “Team Europe is working on preparedness of our partners. We are assisting partners with technical assistance and guidance to prepare national vaccination strategies, logistics, and information campaigns. National ownership and responsibility for preparing and deploying COVID-19 vaccines remains paramount.”^[112]

Uncritical promotion

Scores, perhaps hundreds of Bilderbergers have been actively promoting the jobs. This list contains only the most fervent advocates and those with key jobs allowing them to throw large institutional weight behind such opinions:

“COVID-19 does not respect borders. No country will be safe until the people of every country have access to the vaccine.”

Audrey Azoulay [113]

- Audrey Azoulay – 2019, 2018 – UNESCO Director general. Vocal, uncritical promotion of the COVID official narrative
- Carl Bildt – 2014-2013, 2011-2006, 2000-1999, 1997-1996, 1993-1992 – “An unprecedented threat demands an unprecedented response”^[114] – appointed by Tedros Ghebreyesus in March 2021 as WHO Special Envoy for the Access to COVID-19 Tools Accelerator ^[115], which was Bill Gates’s “bid to organise the development and distribution of everything from therapeutics to testing.”^[116]
- Ana Botín – 2019-2015, 2010 – Head of Banco Santander, who declared at the virtual Davos Agenda summit of global leaders that vaccinations against coronavirus are “the most effective 2021 economic policy.” ^[117]

“People act like they have a choice. You don’t have a choice. Normalcy only returns when we’ve largely vaccinated the entire global population [against COVID-19].”- Bill Gates (2020) ^[118]

- Bill Gates – 2010 – Aggressive promotion of vaccines, ID2020 and vaccine passports. Predicted in March 2020 that “Eventually we will need some digital certificates to show who has recovered or been tested (for COVID-19) recently, or when we have a vaccine, who has received it.”^[119]

They must do “whatever it takes” to finance accelerated production and distribution of vaccines – and, if necessary, reformulated vaccines – globally. This is the only way for us to regain any sort of normality. Nothing should be allowed to get in the way. This is a global war and our species is not yet winning. That has to change, from tomorrow.”
