We have pulled vaccines for much less. Prominent UK cardiologist [Dr. Aseem Malholtra recently](#) gave a [lecture](#), “Has Big Pharma Hijacked Evidence-Based Medicine?” Dr. Malholtra was a strong vaccine

advocate, but no longer. He has evidence to back it up.

“We have pulled vaccines in the past for much less; we have got the highest-level quality of data, saying this is 1 in 800 at least...this vaccine needs to be suspended completely,” he says in this clip. Watch:

THE SUDDEN DEATHS IN CANADA

[Dr. Panda pointed to an interesting study in his newsletter today](#) that supports the numerous studies and observations that point to unexplainable excess deaths throughout the Western World. It

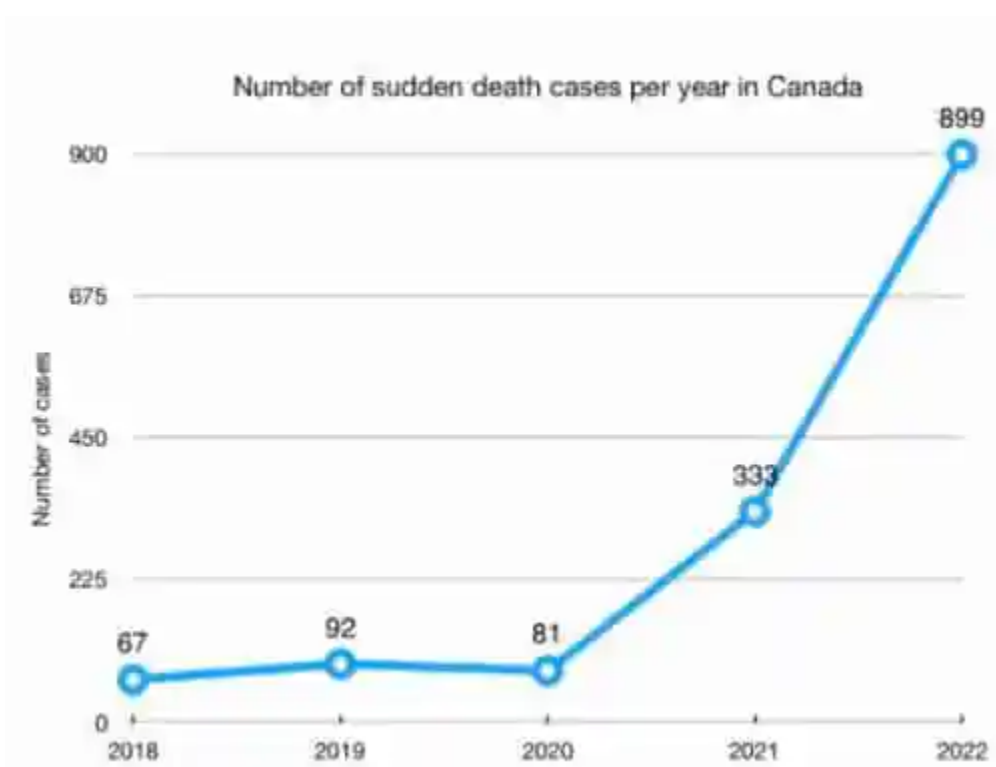

doesn't prove anything, but it certainly needs research. Prime Minister Trudeau won't do it for fear of what he might find.

The Study

Necro Canada is a search engine that provides information on death notices published in Canada. Anonymous authors searched necrocanda.com's obituary database. They searched for terms in English and French – “sudden, suddenly, soudaine, soundainement, subite subitement,” from 2018 through November 2021. What they found was an 11X increase in sudden death cases in Canada. What was an average of 80

obituaries pre-pandemic mentioning sudden death skyrocketed to 899 in 2022. And it's only November.

They found increases in sudden death obituaries coincide with the COVID-19 vaccine rollout.

There was a 4X jump in 2021 and an 11x jump in 2022 in sudden death cases.

Excess mortality is up in every heavily vaccinated country, even when adjusting for COVID deaths. There seems to be a real emergency, and it's not COVID.

The 25% Weekly Excess Death Rate

In April, Kelly Brown, a COVID Data analyst, found a 25% weekly excess death rate for three months that “can’t be explained by a sudden rush of suicides, overdoses, cancers, etc.” You can follow the thread of three tweets on Twitter. In the last one, he says this is a real emergency that needs to be looked at immediately.

The RSV Syndrome is also a concern.

The Lockdowns

The heartbreaking story of Tamara Lich, who organized the Trucker

Convoy. As you know, she was imprisoned over invented charges of violence and racism after she led the peaceful convoy to the Canadian capital.

The Pandemic Treaty Is Coming

The West will sign on to a [new Pandemic Treaty](#) that gives The World Health Organization (The WHO) the power to lock us all down.

One man assumes the power to declare pandemics – Tedros Adhanom Ghebreyesus. He isn't even a medical doctor.
