Is it possible that behind the bizarre, destructive and deranged things are now taking place in America and the world lies a mystery that goes back to the gods of the ancient world ... and that they now have returned?

["The Return of the Gods"](#) is the most explosive book Jonathan Cahn has ever written. Although Cahn is known for revealing the stunning mysteries, many from ancient times, that lie behind and are playing out in the events of our times, with *The Return of the Gods*, Cahn takes this analysis to an entirely new level and dimension.

In "[The Return of the Gods](#)," Cahn takes the reader on a journey from an ancient parable, the millennia-old inscriptions in Sumer, Assyria and Babylonia, that become the puzzle pieces behind what is taking place in our world to this day, specifically in America.

The mystery involves "the gods." Who are they? What are they? And is it possible that these beings, whose origins are from ancient times, are the unseen catalysts of modern culture?

Is it possible that these "gods" lie behind the most pivotal events, forces and movements taking place in our nation and around the world at this very moment? Are "the gods" at this very moment transforming our culture, our children, our lives, and America itself?
