The Overthrow Of  
America And Biggest  
Crimes Against  
Humanity In History Are  
Being Completed**

**- FTX Scandal Proves  
Globalists Are More Corrupt  
Than Almost Anyone**

# Imagined

By Jack Gleason of the Blue State Conservative for All News Pipeline

***"The LIMITS OF TYRANTS are prescribed by the ENDURANCE of those whom they oppress."***

Our country may be nearing

the conclusion of the most dangerous game of political “chicken” in history.

We have just experienced the second great election steal in two years. Will the Uni-Party of Democrats and RINOs succeed in evaporating the Red Wave?

RINO politicians and media are complaining that the conservatives were too lazy to vote in November, but Republicans, Independents

and even Democrats turned out in such huge numbers that the cheating had to be so blatant that it is now impossible to overlook. The “big four” shows on FOX, normally famous for exposing Democrat stupidity and corruption, could have focused on the fraud in a different city or state for each segment since the election, but instead have prattled on about every shiny object EXCEPT 2022 fraud.

Will corrupt legislators,  
governors and politicians  
succeed in quashing the  
protests and legal challenges?

We are seeing a very  
disturbing trend where corrupt  
governments are using the tool  
of freezing bank accounts in  
order to punish protests.

[Canada did this with their  
truckers' strike](#), Brazil is  
[freezing assets of  
businessmen](#) who supported  
protesters of their recent

election which seems to have been stolen. Will protesters in the United States have their bank accounts seized?

But all is not lost. A series of developments is providing hope that the entire web of deceit, manipulation and corruption may soon be unraveled. People all over the world are figuring out what is going on with tainted elections and are protesting.

In Brazil, [fraud using the exact same techniques](#), including [unsecured voting machines](#), has been discovered in their recent presidential election, where the socialist candidate, who had been charged with illegalities, was exonerated by Brazil's corrupt Supreme Court and allowed to run for office. There have been [massive](#)

[protests and strikes](#) throughout the country.

In Mexico, [hundreds of thousands protested](#) far-left

President López Obrador's plan to eliminate Voter ID and remove election safeguards.

The news about the fraud in the November 8th elections continues to leak out on a few fearless websites including video evidence on [Rumble.com](#) and [BitChute.com](#). Thousands have reported voting

irregularities that have yielded results that are [mathematically impossible](#) without rampant cheating. [Democrats themselves have stated repeatedly](#) that our voting machines are easily hacked and manipulated.

The wheels on the bus may be coming off – [four Arizona counties delayed their election certifications](#), which means Arizona can't certify the election until their issues are

resolved and [voting machines are inspected](#).

[Duffle bags of uncounted votes](#) were removed in Arizona.

Governor candidate Kari Lake has shared [videos of the fraud](#) and promises to fight for voting justice. Arizona Attorney

General nominee Abe

Hamadeh just filed a [lawsuit contesting the rigged election in Arizona](#).

In Pennsylvania's Delaware County, election "*officials took*

*a detour on election night with the county's ballots and v-drives into a closed building for six hours. Poll watchers were prevented from entering the building at the time."* [Legal complaints have been filed.](#)

In California, the non-partisan Election Integrity Project has been granted "standing" to file their lawsuit alleging that years of election law changes in the state have led to voter [disenfranchisement.](#)

But the tilting of the scales against conservative candidates isn't limited to just the Democrats. The RNC is accused of distributing a [flawed database](#) to volunteers in Wisconsin and other states with information that was so out of date it was worse than useless.

The GOP Senate and Congressional campaign committees are supposed to remain strictly neutral in

primaries, but Anthony Sabatini writes in "[Chronicles](#)," *"To the surprise of few, it was recently revealed that Senate Minority Leader Mitch McConnell spent a considerable portion of his \$180 million war chest to help establishment Republicans defeat America First candidates in the GOP primary elections."*

When his candidates lost, McConnell withheld funding for the winners.

Kevin McCarthy, the supposed new Speaker of the House of Representatives, is speaking very strongly for sorts of conservative issues, but Sabatini continues, *“According to [The Washington Post](#), the political machine around McCarthy directed millions to*

*be spent against Republican candidates in GOP primaries associated with the America First movement.”*

It is possible that the true conservative Republicans in the House will refuse to elect him as Speaker in January, and insist on a different candidate, perhaps one that will begin serious investigations into 2022 and even 2020 voter fraud.

But the most damning issue

that may challenge the plans of the Uni-Party to eliminate our freedoms and turn the United States over to the Globalists and Red Chinese, is the scandal involving the cryptocurrency FTX. This is turning out to be a gigantic scheme to defraud investors into buying shares of a practically non-existent company that seems to be laundering money donated to support the Ukraine war effort and sending it to

manipulate U.S. elections.

Details are emerging that the weird founder of FTX, a guy named Sam Bankman-Fried, used the money he collected for whatever he wanted. Just before declaring bankruptcy to the amount of \$3.7 billion, he is reported to have [taken out a loan](#) for \$1 billion. \$300,000 seems to have been donated to the very [Congressional committee members who were investigating him](#). And now the

## [list of debtors in the bankruptcy](#)

has been hidden.

Political Moonshine, an open-sourced investigative website, [reported extensively](#) on the complex relationship between billions of U.S. tax dollars, Ukraine, FTX, Biden and the Democrats, and RINO Republicans.

*They claim “Tens of billions of U.S. dollars have been funneled to Ukraine, laundered through FTX, and the*

*laundered money now in the form of FTX cryptocurrency was funneled back to Democrats and the Bidens... FTX gave at least \$40 million to Democrats in advance of the 2022 midterms and funded congressional campaigns for members overseeing the Commodity Futures Trading Commission (CFTC),” which was investigating FTX.*

***Bankman-Fried was the #2 donor to the Democratic***

***party.***

The money laundering circle was: Democrats vote to send funds to Ukraine, Ukraine invests in FTX, FTX cryptocurrency was funneled back to the same Democrats.

To tie everything together, it appears that [Kevin McCarthy](#) [used money from FTX](#) to take out MAGA candidates, including Madison Cawthorn in North Carolina.

And now we are hearing that

Tether, a “stablecoin,” is in just as bad shape as FTX was, and is [tied closely to FTX](#), “*US government-backed rebels in Myanmar, along with al-Qaeda-affiliated Sunni rebel groups of Syria, drug cartels, which, according to some journalists, are deeply intertwined with U.S. three-letter agencies, including the CIA.*”

[Revolver.news](#) has reported [extensively](#) on the whole confusing mess.

***If any of this is true, our leaders and institutions may be more corrupt than we can imagine. A cabal of Globalists, Communist Chinese, and drug cartels may be manipulating our elections and suppressing the evidence of fraud in order to weaken the United States where we will be completely controlled without our people knowing it, at which point they will be***

***so thoroughly entrenched  
that nothing can stop it.***

Which side will win this game of “chicken?” The cabal, with their money, power and deceptions, or a few brave patriots willing to risk everything to expose the corruption and restore fairness to our elections?
