“When bad men combine, the good must associate; else they will fall one by one, an unpitied sacrifice in a contemptible struggle.”—Edmund Burke

You thought the Titanic sinking was an astounding spectacle? Looks like the ship of the Deep State got some holes

ripped in its hull and may be fixing to go down sometime in 2023. The fun-and-games about voting for Speaker of the House are over. Time to get down to '*bidness*' and compel some folks to do some '*splainin*' under oath. You don't know for sure who will be chair of exactly which congressional committee, but there will be several of them running investigations at the same time, looking to shake out some verifiable truth from the dumpster of misrule, sedition, and perfidy that America fell into the past decade. Here are a bunch of my top outlines for inquiries.

Covid-19. Forget about Fauci for the

moment. First, subpoena the various deputies working under him going back as far as the twentieth century and see what they know about the twisted path that gain-of-function research on coronaviruses traveled from the DOD's DARPA to the labs of Dr. Ralph Baric at the U of North Carolina, to labs in Canada, Ukraine, and finally to Wuhan Institute of Virology in China.

Then put Dr. Fauci's @ss in the witness chair and wring out the '*splainin.*' Ask about the patents on the various parts of C-19 and on the mRNA "*vaccines*" cooked up to fight it, and who got the royalties emanating from all of that. Ask him how and why

he continued gain-of-function research post-2014 after the White House directed it to stop. Ask him to ‘*splain*’ his relations with one Peter Daszak of the EcoHealth Alliance.

Ask Deborah Birx to ‘*splain*’ exactly what was going on in that White House C-19 task force. Why did the public health officers demonize early treatments with known, safe drugs and censor anyone who spoke out against their insane policies? What did the task force know about Pfizer and Moderna’s “*vaccine*” trials? Ask Rochelle Walensky how come she and the CDC kept pushing mRNA shots and boosters long after a broad array of

injuries and deaths presented from their use.

Put Bill Gates's @ss in the chair and have him '*splain*' the labyrinth of funding mechanisms he set up to push "*vaccines*" all over the globe and how his tentacles happen to penetrate into the World Health Org (WHO). Ask him if he ever had conversations with the leadership of the WHO and the World Economic Forum (WEF) about population reduction and methods for achieving it.

(ANP FUNDRAISER: First of all, ANP wants to thank everybody who recently donated to ANP during our emergency fundraising drive. You absolutely

amazing people got us out of a huge mess due to heavy censorship by 'big tech' upon ANP articles, so HUGE THANK YOU'S go out to everybody who recently donated as well as to everybody who has [donated to ANP](#) over the years. With donations and ad revenue all that keep ANP online, if you're able, please consider [donating to ANP to help keep us in this fight for America's future at this absolutely critical time in US history. During a time of systematic, 'big tech' censorship and widespread institutional corruption, truth-seeking media and alternative views are crucial, and EVERY little bit helps more than you could know!](#))

Weaponization of Government. Time for FBI Director Christopher Wray to ‘*splain*’ how come he sat silently in possession of the Hunter Biden laptop — stuffed as it was with deal memoranda about payoffs from Ukraine and other foreign lands — through the first impeachment of Mr. Trump in late 2019 and early 2020, from the initial House hearings into the Senate trial... when said laptop was full of exculpatory evidence (“*Brady material*”) proving that Mr. Trump had a good reason to inquire about those matters in a phone call with V.

Zelensky. Ask Mr. Wray what he knows about the roles of “*whistleblower*” (CIA agent) Eric Ciaramella and Intel Agency Inspector General Michael Atkinson and their relations with former House Intel Committee chair Adam Schiff.

Ask Mr. Wray how many federal agents were involved in the January 6 riot at the Capitol building, both inside and outside. Ask him why one Ray Epps was never indicted for incitement captured on video. Ask him why the FBI never made a murder or manslaughter referral in the death of Ashli Babbitt. Don't let him bs the committee about “*ongoing*”

investigations” blah blah. Ask Mr. Wray if he directly ordered his agents to monitor and censor social media companies, and, if not him, who did? Summon the ghost of James Comey to ‘*splain*’ the finer points of RussiaGate: how he fell for Hillary Clinton’s Steele Dossier prank; how he used Columbia University law professor Daniel Richman to leak info about confidential meetings with Mr. Trump; whether he ordered Peter Strzok’s sandbagging operation on Gen. Mike Flynn, the FISA court shenanigans, the hiring of CrowdStrike instead of using FBI forensic experts to vet evidence; the run-up to “*Crossfire Hurricane*” the

roles of international men of mystery Stefan Halper and Josef Mifsud in the operations to incriminate Trump appointees, Nellie Ohr's role as a DOJ-FBI go-between with the Fusion GPS company.

Let's hear from former CIA director John Brennan about the "*17 Intel Agencies*" who swore Russia was behind 2016 election interference and then about the 50-odd distinguished intel officers and other high officials who swore that Hunter Biden's laptop was a Russia put-on job. Ask former Attorney General Bill Barr to '*splain*' if he was informed about the Hunter Biden laptop when the FBI got it in

2019. Bring back former AG Jeff Sessions to '*splain*' how the Mueller Special Counsel's office was stuffed with Democratic Party activist Lawfare cadres, and how he determined that Mr. Mueller was mentally up to the job. Bring in Mr. Mueller to '*splain*' how he testified that in the two-year course of his inquiry he never heard of the company Fusion GPS.

Find a special booster chair for Merrick Garland to '*splain*' how come so many

January 6 suspects are being held indefinitely pre-trial in the DC lockup on rinky-dink charges under the harshest conditions (solitary confinement, denial of medical care) in defiance of due process of law, in particular the constitutional right to a speedy trial. Ask Mr. Garland why he's devoting vast resources of the DOJ to pursue ever more January 6 protesters on Mickey Mouse charges.

Ask him to '*splain*' how it came to pass that he went after parents protesting at school boards about indecent sex ed for little children and racist anti-white indoctrination. Ask him about sending SWAT teams on predawn raids to the homes of investigation targets whose

lawyers volunteered to deliver them to the FBI offices. Ask him why he appointed a RussiaGate-involved lawyer, one Robert K Hur, as Special Counsel in the “*Joe Biden*” classified document matter.

That’s just my short list of areas to begin excavations. The Biden Family influence-peddling operation would be a fertile ground for a dedicated inquiry of a special committee. So would the adventures of Democratic Party Lawfare election engineer Marc Elias, along with the election funding activities (\$400-million) of Mark Zuckerberg’s Center for Technology and Civic Life in 2020. I’m sure readers

can think of a thousand other matters worth airing in the public arena. Let's see if The New York Times, The WashPo, and the cable news networks actually report any of this accurately... or if they just turn up the gaslight.

One somewhat disconnected thought, a sort-of postscript: The World Economic Forum's annual jamboree at Davos, Switzerland, opens this coming Monday. Der Schwabenklaus, Bill Gates, and an international cast of global Big Machers will be in one room for the opening plenary session all at the same time. Think about it. Just sayin'.
